RICH'S Fire - Proof Safes!! FACTS SPEAK LOUDER THAN WORDS!!

A T the great fire which broke out in Warren and Murray arriy to the amount of \$600,000!!

MR. EDITOR:—In the fire at No. 19 Warren-street, on the morning of the 5th inst. our most valuable books and papers were exposed for 26 hours in one of Stearns & Marvin's Fire-Proof Safes.

We say five proof, not because they are so labeled, but because we have so proved them. Our books and papers came out uninjured, save the binding of the books, occasioned by steam.

Our store was five stories above ground, and two attries below, occupied from cellar to garret. The intensity of the heat can be attested by any fireman who witnessed it.

No furnace could be contrived by the ingenuity of man to create a more latens heat. PATENT GALVANIC CEMENT

FOR ROOFING.

THE subscriber is now prepared to cover roofs of buildings, with a new and better article than ever before known. The public are aware that our Government has had scientime now experimenting, and that it has been the study of Auctivests and Builders for pears, to discover an article for receiving purposes, that would stand the sudden changes of the weather, and be impervious to fire and water, and remain a permanent future.

As yet, nothing has been attained without costing more than the people wish. The contraction, expansion and rusting of metal roofs, are so great in changeable climates, that they become useless, unless being repaired at great expense yearly. Shingles are mot fire proof, and cannot be used on flat roofs, and the various Compositions and Cement that have been brought into use for roofing, do not stand the action of the weather, but they run when it is warm, and crack when frosty, and af or one or two years become crup bly, and worthless; v hereas, the inventor of the Galvanic Cement, has inbored ive, may years become crup bly, and worthless; v hereas, the inventor of the Galvanic Cement, has inbored ive, may years become crup bly, and worthless; v hereas, the inventor of the Galvanic Cement, has inbored ive, may years become crup bly, and worthless; v hereas, the inventor of the Galvanic Cement, has inbored ive, may years become crup bly, and worthless; v hereas, the inventor of the Galvanic Cement, has inbored in the action of playe 2. 1536, in relation to combine the last hour set for receiving bids.
